## Why do we do this?

- To make dental care more affordable for people who don't have dental insurance
- Keep routine preventative care more affordable so that we can catch problems when they're small
- It's not an insurance plan so there are no hassles of filing claims or waiting for approval, no waiting periods, no copays, no exclusions for pre-existing conditions, no pre-authorizations, no annual limits, no paycheck deductions.
- You choose the treatment options you want
- Be sure to maximize your savings by getting your appointments scheduled.
- Major credit cards welcome
- 0% financing available through Care Credit
